From the village of Meredith Center, starting at Meredith Center Road, you would travel exactly one mile south on Chemung Road. The cemetery is visible on the left or east side of the road.

The Laconia State Cemetery was established for the burial of residents of the Laconia State School. Over the years residents were buried in unmarked graves at random locations near the school before this cemetery was opened in 1941. As before the burials were unmarked graves until the parents organized and asked that all be identified. In 1976, marked gravestones, purchased by the parents, were laid over each of the graves.

I did this transcription on Jul 25, 2008. There was about 4 graves where the bronze nameplate was missing from the stone, which would equate to an unmarked grave. Other than that, this listing is complete.
